

ID	TC-5.2	Target Description:	Date & Time picker — displaying the list of hours for a provider with a Start time and End time in 12h am/pm format (range-time case)				
Type	Functional		Priority:	H			
Pre-conditions:							
	1	The user is logged into the system at https://example.medicalcrm.com with the Admin role					
	2	The user is on the "Calendar" page at https://example.medicalcrm.com/calendar					
	3	The Time Interval is selected and saved as "20 mins"					
	4	The provider's schedule is selected and saved from "7:00 am" to "6:00 pm"					
	5	The user has the "Add New Appointment" modal window open with the selected provider, visit status, and location					
	6	The selected date is a working day for the provider and is not in the past					
Steps							
	Step		Expected result		Pass	Fail	Bug report ID
	1	Click the "Date & Time" field	A calendar with a "Time" column is displayed				
	2	Check the "Time" column in the calendar	The "Time" column displays a list of hours starting from "7:00 am" in the 12-hour am/pm format				
	3	Check the step between adjacent time values in the "Time" column	The list of hours is displayed with a 20-minute step ("7:00 am", "7:20 am", "7:40 am", ...)				
	4	Scroll the list of hours to the bottom	The last available time in the list is "5:40 pm"
