

# BG-MG-1001.3 - Start and End time values are not updated immediately after editing

## Description

After editing the time values in the "Start time" and "End time" fields and saving the changes, the updated values are not displayed immediately. Instead, both fields continue showing the previous (old) values until the user reloads the page or reopens the "Edit Provider In Calendar" modal window.

## Environment

macOS Monterey 12.7.6, Google Chrome  
142.0.7444.176

## Preconditions

1. The user is logged into the system at "<https://example.medicalcrm.com>" with the Admin role.
2. The user is on the "Calendar" page at "<https://example.medicalcrm.com/calendar>".
3. The "Start time" and "End time" fields contain previously saved values.

## Steps to reproduce

1. In the "Start time" field, select any value different from the currently saved one.
2. In the "End time" field, select any value different from the currently saved one.
3. Click "Save".
4. Reopen the "Edit Provider In Calendar" modal window.

Quickstart

### Actual result

The "Start time" and "End time" fields continue displaying the previous values instead of the updated ones.

### Expected result

The "Start time" and "End time" fields should display the updated values immediately after saving.
