Environment:	macOS Monterey 12.7.6, Google Chrome 142.0.7444.176						
Summary:	The time value in the Sidebar Mini Calendar tooltip is displayed incorrectly						
Description:	When saving a single Start time value, the time value in the tooltip inside the Sidebar Mini Calendar is displayed with an extra dash — "7:00 am–".						

Pre-conditions:		
	1	The user is logged into the system at https://example.medicalcrm.com with the Admin role
	2	The user is on the "Calendar" page at https://example.medicalcrm.com/calendar
	3	The user has the "Edit Provider In Calendar" modal window open with a selected provider, date, interval, visit status, and location
	4	The "Start" field contains a selected time value (the value is selected but not yet saved)

Steps to reproduce:		
	1	Click the "Save" button
	2	Refresh the page
	3	Find the "Sidebar Mini Calendar" and hover over the selected date

Actual result:
After refreshing the page, the tooltip displays the time value with an extra dash: "7:00 am–"

Expected result:
Next to the selected date in the tooltip, only a single time value should be displayed (without a dash and without an End time)
